BRITISH PHYCOLOGICAL JOURNAL

CONTENTS AND INDEX TO

VOLUME 27

The Council of the British Phycological Society wish it to be understood that they do not accept responsibility for the accuracy of statements published in the *Journal*, excepting when those statements are contained in an official report of the Council.

Number 1, pp. 1–103, March 1992
Number 2, pp. 105–215, June 1992
Number 3, pp. 217–351, September 1992
Number 4, pp. 353–434, December 1992

AMSLER, C. D., REED, D. C. and NEUSHUL, M.
The microclimate inhabited by macroalgal propagules 253

BÄCK, S., COLLINS, J. C. and RUSSELL, G.
Effects of salinity on growth of Baltic and Atlantic *Fucus vesiculosus* 39

BJÖRK, M., GÓMEZ-PINCHETTI, J. L., GARCÍA-REINA, G. and PEDERSÉN, M.
Protoplast isolation from *Ulva rigida* (Chlorophyta) 401

BLASCO, J. *see* LUBIÁN, BLASCO and ESTABLIER 119

BRAWLEY, S. H. and JOHNSON, L. E.
Gametogenesis, gametes and zygotes: an ecological perspective on sexual reproduction in the algae 233

BROOK, A. J.
Spirotaenia alpina (Zygnemaphyceae: Mesotaeniaceae), a saccoderm desmid new to the British Isles: revised description and observations on cell division 29

BROOK, A. J.
The desmid *Closterium pusillum* Hantzsch from two terraqueous habitats, with observations on asexual spore production 409

CALLOW, J. A. *see* STAFFORD, CALLOW and GREEN 429

CALLOW, M. E. *see* FLETCHER and CALLOW 303

CANTER, H. M., WALSBY, A. E., KINSMAN, R. and IBELINGS, B. W.
The effect of attached vorticellids on the buoyancy of the colonial cyanobacterium *Anabaena lemmermannii* 65

CHAMBERLAIN, Y. M.
Observations on two melobesioid crustose coralline red algal species from the British Isles: *Exilicrusta parva*, a new genus and species, and *Lithothamnion sonderi* Hauck 185

CHAPPELL, D. F. *see* WATANABE, CHAPPELL and FLOYD 21

CIRINO, R. *see* FLECHTNER and CIRINO 3

CLAYTON, M. N.
Propagules of marine macroalgae: structure and development 219

COLLINS, J. C. *see* BÄCK, COLLINS and RUSSELL 39

ESTABLIER, R. *see* LUBIÁN, BLASCO and ESTABLIER 119

FLETCHER, R. L. and CALLOW, M. E.
The settlement, attachment and establishment of marine algal spores 303

FLECHTNER, V. R. and CIRINO, R.
The effect of growth regimen, heat shock and intracellular starch storage on the mating efficiency of *Chlamydomonas reinhardtii* 3

GREEN, J. R. *see* Stafford, Callow and Green 429

GUIRY, M. D. and WOMERSLEY, H.B.S.
Gelidiella minima sp. nov. (Rhodophyta) from Victoria, Australia: implications for the generic classification of the Gelidiaceae 166

GUO, Z. *see* MATHIESON and GUO 277

GARCÍA-REINA, G. *see* BJÖRK, GÓMEZ-PINCHETTI, GARCÍA-REINA and PEDERSÉN 401

GÓMEZ-PINCHETTI, J. L. *see* BJÖRK, GÓMEZ-PINCHETTI, GARCÍA-REINA and PEDERSÉN 401

HARVEY, A. *see* WOELKERLING and HARVEY 381

IBELINGS, B. W. *see* CANTER, WALSBY, KINSMAN and IBELINGS 65

JOHN, D. M. *see* JOHNSON, L. R. 153

JOHNSON, L. E. *see* BRAWLEY and JOHNSON 233

JOHNSON, L. R. and JOHN, D. M.
Taxonomic observations on some uncommon and new *Gongrosira* species (Chaetophorales sensu stricto, division Chlorophyta 153

JOHNSON, S. *see* VADAS SR., JOHNSON and NORTON 331

JONES, K.
Diurnal nitrogen fixation in tropical marine cyanobacteria: a comparison between adjacent communities of non-heterocystous *Lyngbya* sp. and heterocystous *Calothrix* sp. 107

KINSMAN, R. *see* CANTER, WALSBY, KINSMAN and IBELINGS 65

KUGRENS, P. *see* LEE, KUGRENS and MYLNIKOV 369

LEE, R. E., KUGRENS, P. and MYLNIKOV, A. P.
The structure of the flagellar apparatus of two strains of *Katablepharis* (Cryptophyceae) 369

LEEDALE, G. F. *see* PIPES and LEEDALE 11

LUBIÁN, L. M., BLASCO, J. and ESTABLIER, R.
A comparative study of acid and alkaline phosphatase activities in several strains of *Nannochloris* (Chlorophyceae) and *Nannochloropsis* (Eustigmatophyceae) 119

MCAULEY, P. J.
The effect of maltose release on growth and nitrogen metabolism of symbiotic *Chlorella* 417

MATHIESON, A. C. and GUO, Z.
Patterns of fucoid reproductive biomass allocation 271

MILLAR, A. J. K. and WYNNE, M. J.
Valeriemaya gen. nov. (Rhodophyta), with a discussion of apical organizations within the Delesseriaceae 131

MYLNIKOV, A. P. *see* LEE, KUGRENS and MYLNIKOV 369

NECCHI JR., O. and SHEATH, R. G.
Karyology of Brazilian species of *Batrachospermum* (Rhodophyta, Batrachospermales) 423

NEUSHUL, M. *see* AMSLER, REED and NEUSHUL 253

NORTON, T. A.
Dispersal by macroalgae 293

NORTON, T. A. *see* VADAS SR., JOHNSON and NORTON 331

OBITUARY, WILLIAM RANDOLPH TAYLOR, 1895–1990 1

PEDERSÉN, M. *see* BJÖRK, GÓMEZ-PINCHETTI, GARCÍA-REINA AND PEDERSÉN 401

PENTECOST, A.
Growth and distribution of endolithic algae in some North Yorkshire streams (UK) 145

PETERS, A. F.
Culture studies on the life history of *Dictyosiphon hirsutus* (Dictyosiphonales, Phaeophyceae) from South America 177

PIPES, L. D. and LEEDALE, G. F.
Scale formation in *Tessellaria volvocina* (Synurophyceae) 11

REED, D. C. *see* AMBLER, REED and NEUSHUL 253

ROCA, J. R. *see* SABATER, S. 203

RUSSELL, G. *see* BÄCK, COLLINS and RUSSELL 39

SABATER, S. and ROCA, J. R.
Ecological and biogeographical aspects of diatom distribution in Pyrenean springs 203

SHEATH, R. G. *see* NECCHI JR. and SHEATH 423

STAFFORD, C. J., CALLOW, J. A. and GREEN, J. R.
Isolation and characterization of plasma membranes from *Fucus serratus* eggs 429

TRAINOR, F. R.
Cyclomorphosis in *Scenedesmus communis* Hegew. Ecomorph expression at low temperature 75

TYLER, P. A.
A lakeland from the dreamtime. The Seccond Founders' Lecture 353

VADAS SR., R. L., JOHNSON, S. and NORTON, T. A.
Recruitment and mortality of early post-settlement stages of benthic algae 331

VYVERMAN, W.
Altitudinal distribution of non-cosmopolitan demids and diatoms in Papua New Guinea 49

WALSBY, A. E. *see* CANTER, WALSBY, KINSMAN and IBELINGS 65

WATANABE, S., CHAPPELL, D. F. and FLOYD, G. L.
Ultrastructure of the flagellar apparatus of the gametes of *Gongrosira papuasica* (Chlorophyta) 21

WOELKERLING, WM.J. and HARVEY, A.
Mesophyllum incisum (Corallinaceae, Rhodophyta) in southern Australia: implications for generic and specific delimitation in the Melobesioideae 381

WOMERSLEY, H. B. S. *see* GUIRY and WOMERSLEY 165

WYNNE, M. J. *see* MILLAR and WYNNE 131

ABSTRACTS OF PAPERS

presented to the British Phycological Society January 1992

AGUIRRE-LIPPERHEIDE, M. and EVANS, L. V. (University of Leeds, England)
An assessment of the effects of several antibiotics on the brown alga *Stypopodium zonale* (Dictyotales) in the context of axenic culture 83

BANAIMOON, S. A. (College of Education, Mukalla, Yemen)
The ecology of intertidal macroalgal assemblages on the hadramout coast, Yemen, an area of seasonal upwelling 83

BARRETT, P. R. F. and NEWMAN, J. R. (AFRC, Aquatic Weeds Research Unit, Reading, England)
Algal growth inhibition by rotting barley straw 83

BERNARD, C., MOUSSEAU, A. and THOMAS, J. C. (Ecole Normales-superieure, France)
Molecular characterization of the phycobilisome components of a red alga: *Rhodella violacea* 84

BERUBE, K. A., DODGE, J. D. and FORD, T. W. (Royal Holloway and Bedford New College, University of London, England)
The use of image analysis to quantify the effects of salt shock in *Dunaliella bioculata* 84

BIRKETT, D. A. and DRING, M. J. (Queen's University of Belfast, Northern Ireland)
Phosphate uptake by macroalgae: the effects of light or dark pretreatments 84

BRODIE, J. and NORRIS, J. N. (Bath College of Higher Education, England and Smithsonian Institution, Washington, USA)
A new species of *Liagora* (Rhodophyta) from the Florida Keys: life history, morphology and comparison with other members of the genus 85

BROOK, A. J. (University of Buckingham, England)
Taxonomic revisions to a very polymorphic group, The Desmidiaceae—problems and attitudes 85

BROWNLEE, C., TAYLOR, A. R. and ROBERTS, S. K. (Marine Biological Association, Plymouth, England)
The mechanism of egg activation in *Fucus* 85

BUCHHOLZ, B., HAYES, P. K. and WALSBY, A. E. (University of Bristol, England)
The role of the outer gas vesicle protein 85

CAMPBELL, D. L., LAWTON, L. A., BEATTIE, K. A. and CODD, G. A. (University of Dundee, Scotland)
Comparative toxicity assessment of blue-green algal blooms 86

CARVALHO, L. (University of Liverpool, England)
Control of phytoplankton by zooplankton at very high nutrient concentrations 86

CHRETIENNOT-DINET, M.-J. (Observatoire Océanologique de Banyuls, France)
Extant species of marine Coccolithophorids 88

CLARKSON, N. and EVANS, L. V. (University of Leeds, England)
The assessment of "non leaching" biocides as marine antifouling agents 88

CODD, G. A., BEATTIE, K. A., LAWTON, L. A. and EDWARDS, C. (University of Dundee, Scotland)
Blue-green algal toxins 87

COX, E. J. (University of Sheffield, England)
The use of diatoms as indicators of river water quality 87

CRAIG, D. E., SIGEE, D. C. and EPTON, H. A. S. (University of Manchester, England)
Bio-control agents for freshwater cyanobacteria: isolation, testing and visualization 87

CREED, J. C., KAIN (JONES), J. M. and NORTON, T. A. (Port Erin Marine Laboratory, University of Liverpool, Isle of Man)
The importance of density and self-thinning in a population of *Fucus vesiculosus* 87

CROMAR, N. J. and FALLOWFIELD, H. J.* (Napier Polytechnic and *The Scottish Agricultural College, Auchincruive, Scotland)
Partitioning of nutrients within components of biomass in a high rate algal pond 88

DODGE, J. D. (Royal Holloway & Bedford New College, London, England)
Analyses of dinoflagellate distributions in the N. E. Atlantic and North Sea 88

DRING, M. J. and LÜNING, K. (Queen's University of Belfast, Northern Ireland and Biologische Anstalt Helgoland, Germany)
An improved station for continuous monitoring of underwater light climate at Helgoland (North Sea) 88

ECCLESTON, J. D. and LEADBEATER, B. S. C. (University of Birmingham, England)
Competitive survival strategies of colourless flagellates 88

FALLOWFIELD, H. J., HUGHES, S. E. and CROMAR, N. J.* (The Scottish Agricultural College, Ayr and *Napier Polytechnic, Edinburgh, Scotland)
Temporal changes in photosynthetic activity in a high rate algal pond 89

FIGUEIREDO, M., KAIN (JONES), J. M. and NORTON, T. A. (Port Erin Marine Laboratory, University of Liverpool, Isle of Man)
Crustose coralline algae responses to epiphyte cover 89

FLYNN, K. J., FLYNN, M. K. and JONES, K. J. (University of Wales, Swansea and DML, Oban, Scotland)
Detecting changes in the carbon-nitrogen status of dinoflagellates 89

GACESA, P. (University College of Cardiff, Wales)
A molecular biological approach to the taxonomy of the Rhodophyta 89

GILPIN, L. C. (Queen's University of Belfast, Northern Ireland)
Nitrogenous metabolites in marine phytoplankton: changes over an annual cycle in Strangford Lough, Northern Ireland 90

GOROSTIAGA, J. M. and LIMIA, J. M. (Universidad del País Vasco, Spain)
Patterns in the algal distribution on the Abra estuary in relation to a pollution gradient 90

GOROSTIAGA, J. M. and SANTOLARIA, A. (Universidad del País Vasco, Spain)
On the presence of *Schimmelmannia schousboei* J. Agardh (Gloiosiphoniaceae, Rhodophyta) in European coastal waters 90

GREEN, J. R., STAFFORD, C. J., WRIGHT, P. J. and CALLOW, J. A. (University of Birmingham, England)
Analysis of *Fucus serratus* gamete surfaces and vegetative tissue using monoclonal antibodies 90

GUPTA, A., HUCKLE, J. W., WHITTON, B. A. and ROBINSON, N. J. (University of Durham, England)
Analysis of a cyanobacterial metallothionein gene in cadmium-tolerant cells 91

HAN, T. J. and KAIN, J. M. (Port Erin Marine Laboratory, University of Liverpool, Isle of Man)
Growth responses of early sporophytes of *Laminaria hyperborea* to light 91

HAPPEY-WOOD, C. M. and LUND, A. H. (University College of North Wales, Bangor, Wales)
Bacteria and picoplankton production in an upland lake 91

HARD, B. C. and GILMOUR, D. J. (University of Sheffield, England)
Comparison of lipid composition of *Dunaliella parva* 19/9 mutant and wild type cells 91

HAWSER, S. P., BEATTIE, K. A. and CODD, G. A. (University of Dundee, Scotland)
Toxic blue-green algae from brackish- and marine waters 92

HEATH, C. R., LEADBEATER, B. S. C. and CALLOW, M. E. (University of Birmingham, England)
Calcification of anti-fouling paints 92

HENSCHEL, D.*, SIMONS, J.† and KIRST, G.-O.* (*University Bremen, Germany; †Vrije Universiteit Amsterdam, The Netherlands)
Ecotypes of the euryhaline Xanthophyceae *Vaucheria dichotoma* (L.) Martius 92

HITCHINGS, B. R., FERRY, B. W. and FORD, T. W. (Royal Holloway and Bedford New College, University of London, UK)
Salinity influences on phytoplankton ecology at Dungeness, Kent, UK 92

HOOPER, R. G. (Portsmouth Polytechnic, England and Memorial University of Newfoundland, Canada)
Mass mortality and community changes associated with a winter hurricane followed by a hot summer 93

HOOPER, R. G.*†, TITTLEY, I.‡ and FARNHAM, W. F.† (*Memorial University of Newfoundland, Canada, †Portsmouth Polytechnic, ‡Natural History Museum, England)
Studies of the seaweed communities of a floristic boundary. Straits of Belle Isle, Newfoundland 93

HOOPER, R. G.*† and WHITTICK, A.* (*Memorial University of Newfoundland, Canada, †Portsmouth Polytechnic, England)
Perturbation of seaweed phenology associated with late summer sea ice and resultant low water temperatures 93

JOHNSTON, A. M., MABERLY, S. C.* and RAVEN, J. A. (University of Dundee, Scotland and *Institute of Freshwater Ecology, Windermere, England)
The photosynthetic characteristics of four red macroalgae 94

JOHNSTON, A. M. and RAVEN, J. A. (University of Dundee, Scotland)
The acquisition of DIC by the marine diatom *Phaeodactylum tricornutum* 94

JONES, H. L., GREEN, J. C.* and LEADBEATER, B. S. C. (University of Birmingham, and *Plymouth Marine Laboratory, England)
Algae that eat—food for thought 94

JOSLIN, P. A., LAYBOURN-PARRY, J. E. M. and JONES, K. (University of Lancaster, England)
The suitability of salt marsh cyanobacteria as a food source for the amoeba *Thecamoeba pulchra* (Biernacka) 94

JURD, K., ROGERS, D. J. and MCLELLAN, D. S. (Portsmouth Polytechnic, England)
Anticoagulant activities from *Codium bursa* and *C. vermilara* 95

KAUR, K. (Severn Trent Water Ltd., Coventry, England)
Use of ozone to enhance treatment of algal laden water 95

KENNAWAY, G. M. A., TETT, P. and LUCAS, I. A. N. (University College of North Wales, Menai Bridge, Wales)
Dinoflagellates as grazers of phytoplankton 95

KINROSS, J. H., CHRISTOFI, N. and READ, P. A. (Napier Polytechnic, Edinburgh, Scotland)
Filamentous algae as environmental indicators: field and laboratory studies 95

LEADBEATER, B. S. C. (University of Birmingham, England)
Algal interference with water treatment processes 95

LOISEAUX-DE GOËR, S. (Observatoire Océanologique de Roscoff, France)
Origin of chromophyte plastidial genes 96

LOVE, A. J., GUBBINS, B.* and LEADBEATER, B. S. C. (University of Birmingham, and *Anglian Water Services Ltd, England)
Phosphorus control in eutrophic water supply reservoirs 96

MCAULEY, P. J. (St. Andres University, Scotland)
Are symbiotic algae nitrogen-limited or carbon-starved? 96

MAGGS, C. A.*, DOUGLAS, S. E.†, FENETY, J.† and BIRD, C. J.† (*Queen's University, Belfast; †NRCC Institute for Marine Biosciences, Halifax, Canada)
A molecular and morphological analysis of the *Gymnogongrus devoniensis* (Rhodophyta, Phyllophoraceae) complex in the North Atlantic 96

MARKER, A. F. H. and COLLETT, G. D. (Institute of Freshwater Ecology, Monks Wood, England)
Epiphytic algal development in relation to turbidity and phytoplankton growth in the River Ouse, a highly regulated lowland river 97

MEDLIN, L. K. (Alfred-Wegener-Institut, Bremerhaven, Germany)
The use of rRNA sequence analysis for phylogenetic analysis 97

MOSS, B. (University of Liverpool, England)
Sound solutions to algal control 98

PEARSON, M. J. and FERGUSON, A. J. D. (Anglian Region, National Rivers Authority, England)
Operational aspects of dealing with blue-green algal blooms 99

PHILLIPS, G. (N. R. A., ANGLIAN REGION)
The control of phytoplankton growth in the Norfolk Broads 99

RATCHFORD, I. A. J. and FALLOWFIELD, H. J. (The Scottish Agricultural College, Ayr, Scotland)
The effect of culture wavelength on light enhanced dark respiration 99

RAVEN, J. A.* and GRIFFITHS, H.† (*University of Dundee, Scotland and †University of Newcastle upon Tyne, England)
The photosynthetic potential of free-living and lichenized terrestrial green algae and cyanobacteria 98

RAVEN, J. A.*, GUNNING, B. E. S.†, HANDLEY, L. L.*‡, JOHNSTON, A. M.*, MABERLY, S. C.§ and SCRIMGEOUR, C. M.* (*University of Dundee, Scotland, †Australian National University, Australia, ‡S.C.R.I. Invergowrie, Scotland and §Institute of Freshwater Ecology, Ambleside, England)
Mechanisms of inorganic carbon assimilation by macroalgae deduced from $^{13}C/^{12}C$ natural abundance 99

RAVEN, J. A.*, MACFARLANE, J. J.*† and NEWMAN, J. R.*‡ (*University of Dundee, Scotland, †University of Adelaide, Australia and ‡Aquatic Weeds Research Unit, Sonning, England)
Inorganic carbon supply to the lotic freshwater macroalgae *Cladophora glomerata* and *Lemanea mamillosa* 99

REES, S. and JONES, R. I. (University of Lancaster, England)
Phagotrophic nutrition of phytoflagellates 100

ROBERTS, S. K. and BROWNLEE, C. (Marine Biological Association, Plymouth, England)
Second messengers and egg activation patterns in *Fucus* 100

SCHMID, R. and DRING, M. J. (Queen's University of Belfast, Northern Ireland)
Stimulation of red light saturated photosynthesis and shifting of the circadian photosynthetic rhythm by blue light in *Ectocarpus siliculosus* 100

SHUBERT, L. E. (University of North Dakota, USA)
Soil algae as ecological indicators: a conceptual view 100

SMART, J. D., SMITH, B. E., BARNES, M. S., BLUNDEN, G., SMITH, A. L. and SIMPSON, B. L. (Portsmouth Polytechnic and Alginure Products Ltd., Tunbridge Wells, England)
Evaluation of soil conditioning agents based on *Ascophyllum nodosum* 100

STENGEL, D. B. and DRING, M. J. (Queen's University of Belfast, Northern Ireland)
Ascophyllum nodosum as an indicator of copper and iron levels in Strangford Lough and Co. Sligo 101

TAYLOR, A. R. and BROWNLEE, C. (Marine Biological Association, Plymouth, England)
Plasmalemma currents in unfertilized and fertilized eggs of *Fucus serratus* 101

WARD, B. A. (Queen's University of Belfast, Northern Ireland)
Molecular approaches to taxonomy in *Ceramium* (Rhodophyta Ceramiales) 101

WEBSTER, E. A. and GADD, G. M. (University of Dundee, Scotland)
The effect of heavy metals on the ionic composition of *Ulva lactuca* 102

WHAPHAM, C. A., JENKINS, T., BLUNDEN, G. and HANKINS, S. D. (Portsmouth Polytechnic and Mexicrop International Ltd, England)
Increased chlorophyll content of tomato leaves treated with seaweed extract 102

WHITTON, B. A. (University of Durham, England)
Nuisance algae in the year 2000: an attempt to predict the future 102

WILKINSON, M. and TELFER, T. C. (Heriot-Watt University, Edinburgh)
Toxicity testing and environmental bioassay using marine algae 102

WILLIAMS, D. M. (The Natural History Museum, London, England)
Biogeography and diatoms: ecology or history? 103

WILSON, M. W. and EDYVEAN, R. G. J. (University of Leeds, England)
Algal biosorption for the removal of dissolved metals from industrial wastewater 103

WRIGHT, P. J., GREEN, J. R. and CALLOW, J. A. (University of Birmingham, England)
The search for egg receptors on the *Fucus* sperm surface 103

BOOK REVIEWS

Seaweeds of the British Isles. Volume 2. Chlorophyta. By E. M. BURROWS 215

Seaweed Resources in Europe: Uses and Potential. By M. D. GUIRY & G. BLUNDEN 216
